Interests and Hobbies

Linux and Open Source

I'm using Linux on my laptop since four years ago. I used distributions such as Ubuntu, Archlinux et NixOs. I like to use open source softwares when it is possible.

Sciences et Research

I have always been atracted to sciences, computer science in particular. I like to watch conferences and read articles on computer science as well as mathematics or physics.

Sport

I've been skateboarding for more than a decade. This sport, although individual, hold strong values of mutual aid and solidarity, while requiring perseverance and mental fortitude. I also played football, badminton, tennis, orienteering in clubs.

Music

I play basse guitar as well as percussions and guitar. I joined the jazz band and the fanfare orchestra of my village. I also participated in intensive music workshops during 4 summers.
